Intent	'Creativity takes courage' - Henri Matisse					
	At Talavera, we ensure our Art Curriculum embodies the highest form of creativity that is accessible to all, maximising the development of every child's ability and artistic achievement. We engage, inspire and challenge our pupils in order to equip them with the knowledge and skills needed to experiment and express themselves through the use of different art and design techniques (sketching, painting, sculpture and other art and design techniques). Our curriculum enables children to study current and historic artists and apply those techniques and vocabulary to communicate how they see, think and feel about the world around them. It also allows the children to think independently and critically whilst developing an understanding of how art contributes positively to our community. Our art units are designed to show clear progression of techniques throughout the school, taught through a spiral curriculum. This will allow the children to progress onto Key Stage 3 being able to use their sketch book as a tool to record and discuss their creativity, comment on the work of others and discuss their own views as confident, passionate artists.
